

Moles, Milia and Skin Tag Removal

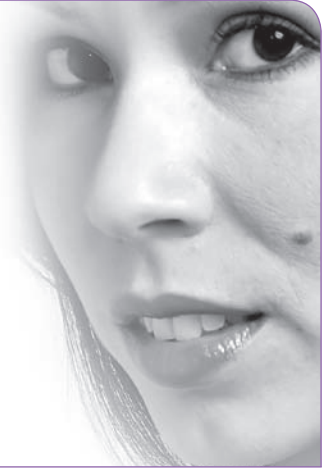

If you find NHS waiting lists unacceptably long or would like a skin lesion removed for purely cosmetic reasons, our experienced skin surgeons can carry out your minor operation quickly, safely and discreetly.

The Epsom Skin Clinic provides a complete minor surgery service, including histology testing, for anyone concerned about a lump or bump. We have a fully-equipped minor operating room and can either perform the procedure in our 'see & do' clinics or we can arrange for removal at a time that suits you.
